New TRASDATA

In the Next Newsletter that will be released before Christmas 2014 Dimsport will introduce a new update for Bosch EDC17C41 and EDC17CP45 ECU for BMW Diesel Fxx Series with E-Net Technology. The update will work for NEW TRASDATA and no other Tool will be required.

In order to use the Metal Positioning Frame with F34DM011 Adaptor it will be necessary to use cable F32GN038, that was already included in Bootloader kit for NEW GENIUS and is still available as spare part. It will also be possible to work on the ECUs as Free Wiring application without cable.

F32GN038

CARS:

VAG MED17xx PETROL TPROT7-TPROT8-TPRO10 , SIMOS12/18
The following protocols do not need Patch with NEW TRASDATA so it's possible to work directly from OBDII port.

NEW : FLASH_0482 VAG BOSCH MED17.5/MED17.5.20/MED17.5.5 TC1766 CAN
This protocol do not support reading function. A Certified Original File will be available in our Online Database: If the file is not available it's mandatory to open the ECU, read the file with NEW TRASDATA and send DIM File to RACE Support.

NEW: FLASH_0483 VAG BOSCH MED17.5.2 / ME17.5.6 / ME17.5.20 TC1767 CAN
This protocol do not support reading function. A Certified Original File will be available in our Online Database: If the file is not available it's mandatory to open the ECU, read the file with NEW TRASDATA and send DIM File to RACE Support.

NEW : FLASH_0484 VAG BOSCH MED17.1 / MED17.1.1 TC1796 CAN
This protocol do not support reading function. A Certified Original File will be available in our Online Database: If the file is not available it's mandatory to open the ECU, read the file with NEW TRASDATA and send DIM File to RACE Support.

NEW : FLASH_0485 VAG BOSCH MED17.1.1 / MED17.1.6 TC1797 CAN
This protocol do not support reading function. A Certified Original File will be available in our Online Database: If the file is not available it's mandatory to open the ECU, read the file with NEW TRASDATA and send DIM File to RACE Support.

NEW : FLASH_0486 VAG CONTINENTAL SIMOS12 TC1797 CAN
This protocol do not support reading function. A Certified Original File will be available in our Online Database: **If the file is not available it will not be possible to modify the ECU** because it's impossible to read the data with NEW TRASDATA.

NEW : FLASH_0507 - VAG BOSCH MED17.5.21 TC1782 CAN
This protocol do not support reading function. A Certified Original File will be available in our Online Database: **If the file is not available it will not be possible to modify the ECU** because it's impossible to read the data with NEW TRASDATA.

NEW : FLASH_0509 VAG CONTINENTAL SIMOS18 TC1791 CAN
This protocol do not support reading function. A Certified Original File will be available in our Online Database: **If the file is not available it will not be possible to modify the ECU** because it's impossible to read the data with NEW TRASDATA.
